POOLA TEJESH

Data Analyst | AI/ML Engineer | Python Developer

+91 99898 12370 | poolatejesh2006@gmail.com | LinkedIn | GitHub | Hyderabad, India

PROFESSIONAL SUMMARY

Results-driven Data Analyst and AI/ML Engineer with expertise in **Python** development and **Machine Learning** system implementation. AWS Certified (AI Practitioner, ML Engineer, Cloud Practitioner). Proven ability in building production-grade NLP models, **SQL**-based data pipelines, RAG systems, and scalable APIs. Track record of delivering 93%+ accuracy ML models and 40% performance improvements.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Machine Learning & AI: PyTorch, Scikit-Learn, Hugging Face Transformers, PEFT, LoRA, NLP, Deep Learning, Neural Networks, BERT, DistilBERT, LLM Fine-Tuning

Data Engineering: Pandas, NumPy, PySpark, ETL Pipelines, Data Quality, Feature Engineering, SQL Database Management

Web Development: React.js, REST APIs, Node.js, MongoDB, PostgreSQL, FastAPI

Cloud & DevOps: AWS (AI services, ML services), Git Version Control

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Excel Analytics

PROFESSIONAL EXPERIENCE

Data Analyst Trainee – Data Mites Global Training Institute

Hyderabad, India | Jan 2026 – Present

- Engineered **data pipelines** on 5+ datasets using Python and SQL, achieving 100% accuracy through systematic debugging and Git version control
- Developed 8+ **machine learning** classification models using Scikit-Learn and PyTorch, achieving 93%+ accuracy; conducted code reviews and resolved 25+ debugging issues
- Architected interactive **data dashboards** in Python and Excel using object-oriented design, reducing stakeholder time-to-insight by 40%
- Collaborated on **data annotation** workflows across 3 unstructured datasets with quality assurance standards; documented technical specifications for knowledge transfer

KEY PROJECTS

RAG-Powered AI Chatbot: Designed end-to-end Retrieval-Augmented Generation (RAG) system achieving <100ms retrieval latency with 92%+ response relevance using FAISS vector database and LangChain orchestration and Fine-tuned LLaMA/Mistral models using LoRA and Parameter-Efficient Fine-Tuning (PEFT), reducing GPU memory consumption by 60% while maintaining 91%+ F1-score through custom PyTorch training loops

Task Manager – Full Stack SaaS: Engineered production-ready SaaS application with secure REST API authentication (JWT), analytics dashboard, and advanced filtering; achieved 99.2% uptime and Optimized MongoDB queries and indexing achieving <200ms response times; conducted code reviews identifying 15+ bugs pre-production deployment

EDUCATION

Bachelor of Technology – Data Science | Mohan Babu University, Tirupati, India

Expected Graduation: August 2026

CERTIFICATIONS

AWS Certified AI Practitioner | AWS Certified ML Engineer – Associate | AWS Certified Cloud Practitioner
Google Data Analytics | Deloitte Data Analytics Program
